With the rapid evolution of the EV industry and its fascinating advancements, it’s not always easy to stay up-to-date on the latest and greatest. We at Konnectronix hand pick our favorite and most informative news articles every month.

“Achieving California’s ambitious goals for reducing air pollution and harmful greenhouse gas emissions will require 7 million electric cars on California highways by 2030.”

“By introducing more electric taxis to Columbus streets, the program seeks to foster sustainability, educate the public on EVs and capture data on EV usage.”

“June will mark the 33rd month of consecutive year-over-year monthly sales gains for plug-in vehicles.”
